

**TARIFF
& DALE**

2 TARIFF STREET

Search for the history of 2 Tariff Street and not a lot appears. That's because we invented it. Our entrance was the tradesman's entrance of 45 Dale Street.

Dig a little deeper though and the site begins to talk. Having always been associated with either textiles or metalworking, around 1858 the building was torn down, re-emerging as the showroom and warehouse of cotton spinners Ralph Waller & Co Ltd. The hydraulic fabric press in the kitchen was probably installed during the original build when the basement was filled with looms and weaving machines. The building remains standing now thanks to the huge girders in the basement, installed after a direct firebomb on the building during the Manchester Blitz of WWII.

The history of 2 Tariff Street is tied to the city's; part of its DNA, the fabric of the city - literally. Reinvented as Tariff & Dale, we continue its evolution, writing the next chapter of the building's annals.

~

Footnote: the design of our menu was inspired by a little piece of history we came across whilst building T&D. The black edged envelope, addressed to a previous tenant Messrs Willcocks & Sons Ltd, is framed in the entrance and dates from 1896. The stamp on it is a '1d Lilac' or '1 penny Lilac'.
